BEST-DECORATED DENTIST OFFICE

Dr. Will Hoskyns, D.D.S.
1616 N. Litchfield Road
Goodyear
623-935-2678

There's a place in the West Valley where Will and Susan Hoskyns turn frowns upside down.

Not only does the dentist offer a "comprehensive cosmetic practice," which whitens smiles with veneers and fixes the mouths of people who grind their teeth, he offers an entire office full of precious art that makes people feel like they've stepped into Europe during centuries past.

Hoskyns bought a practice in Litchfield Park, then went to work on new offices featuring masterpiece artworks, including an early 1700s Italian copy of a painting called *The Entombment*; a fireplace from the Directoire period that was found in the province of Poitou-Charantes and shipped to this country in 16 pieces; and a pair of French doors that survived the Paris flood.

The dentist specializes in high-profile and celebrity clients who can secretly slip into the West Valley and stay at the five-star Wigwam Resort while he gives them million-dollar smiles.

Here you will find an elegant Chinese dog from 206 B.C., created during the Han dynasty and collected from an antiquities dealer in Salisbury, England. And a piece on the fireplace is Spanish, a statue of Christ sitting on the Bible, done in the 1600s.
